Code:LF-FS Price:¥150.000
Weight:6Kg

Fluminensis Father

Code:LF-FF Price:¥300.000
Weight:19.3Kg

The inside out

1. Metal frame - Canvas

It acts as a nest and can be adapted according to the style of the client. (color, design, size, finish)

2. Vegetable layer - Colors

Just as a painter uses his colors to create a piece of art, plants are the colors that make up this garden.

3. Irrigation system - Interaction

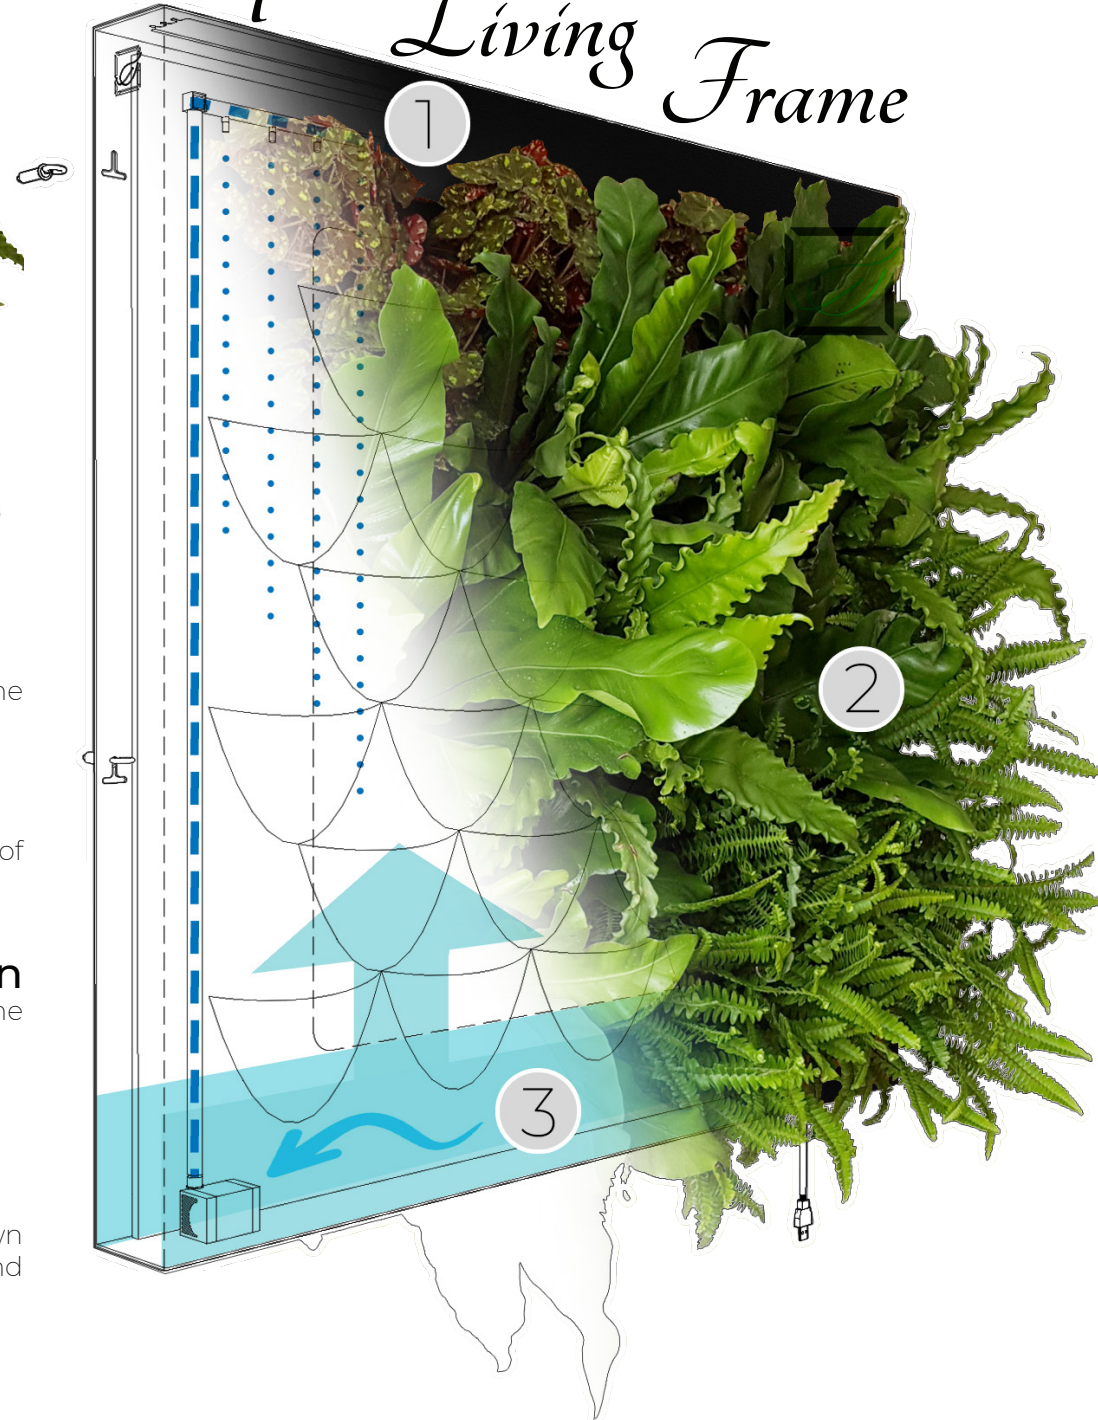

Put water in it, plug it into the outlet and enjoy. The irrigation system is electric and the environment where the plants are found is hydroponic

User manual

You are the artist of your own piece of art. Each *Ubiqua Living Frame* comes with its own guide where you can find detailed information and recommendations to keep your plants always vitalized.
